## TORNADO HERITAGE

Tornado is one of the longest-standing and most recognizable brands in Italian boating. With over half a century of production and hundreds of boats launched, it has earned the trust of boat owners and enthusiasts worldwide with its legacy of craftsmanship spanning decades of international competition.

Founded in Fiumicino in the late 1960s with the vision of bringing American offshore performance to the Mediterranean, Tornado successfully transformed this challenge into its own distinctive style characterized by clean lines and a clear commitment to manufacturing excellence.

A front-facing view of a blue sports car, likely a Lotus Evija, with its headlights and a central triangular light glowing. The car is set against a dark background with bright light sources on the sides.

SAME SPIRIT. NEW HORIZONS.

# TORNADO 40

*MADE IN ITALY DNA*

Get ready to experience unparalleled thrills aboard the new Tornado 40.

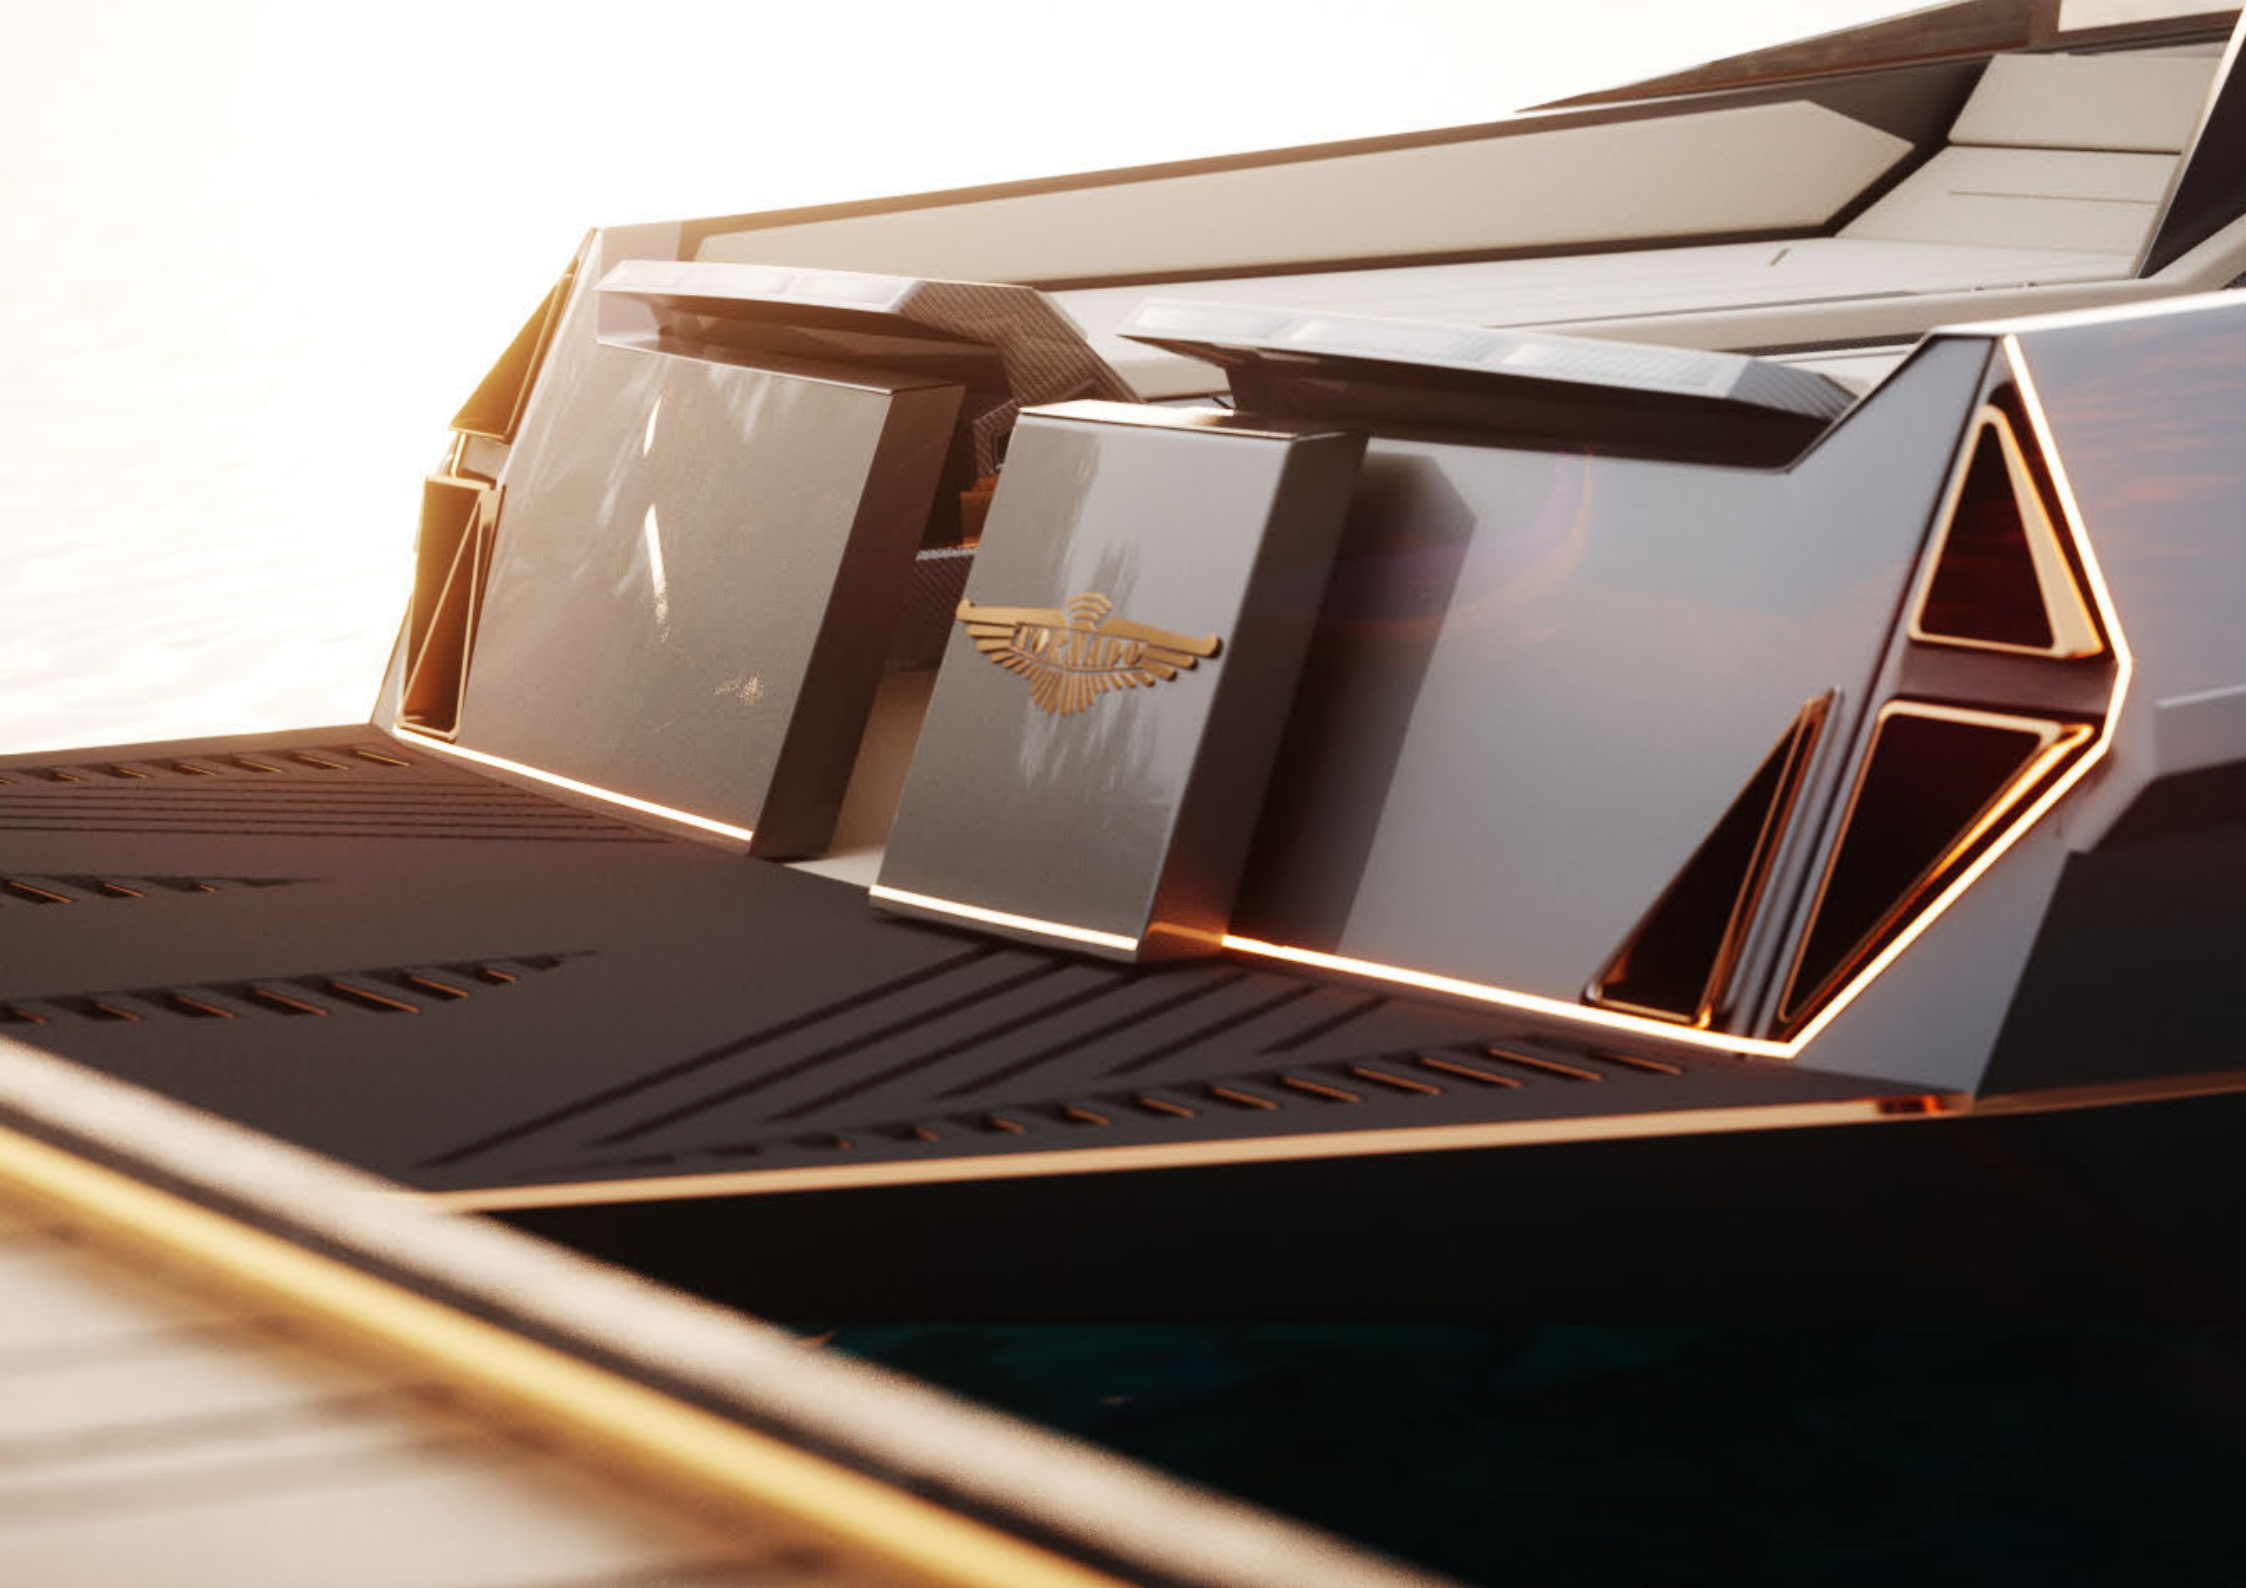

This model already embodies all the hallmarks of a New Era. It features a captivating design born from the seamless blend of simple, perfectly harmonious lines. A design that tells the story of Tornado's heritage while boldly projecting into the future. Pure elegance and dynamism.

Meticulous attention to detail. Absolute comfort achieved through the selection of premium materials, high technological standards, and masterful space management.

The Tornado 40 stays true to the sporty soul that made the brand great. It offers new engine options and enhanced power, alongside the complete peace of mind that comes with safe cruising.

Already a true icon of Made in Italy excellence.

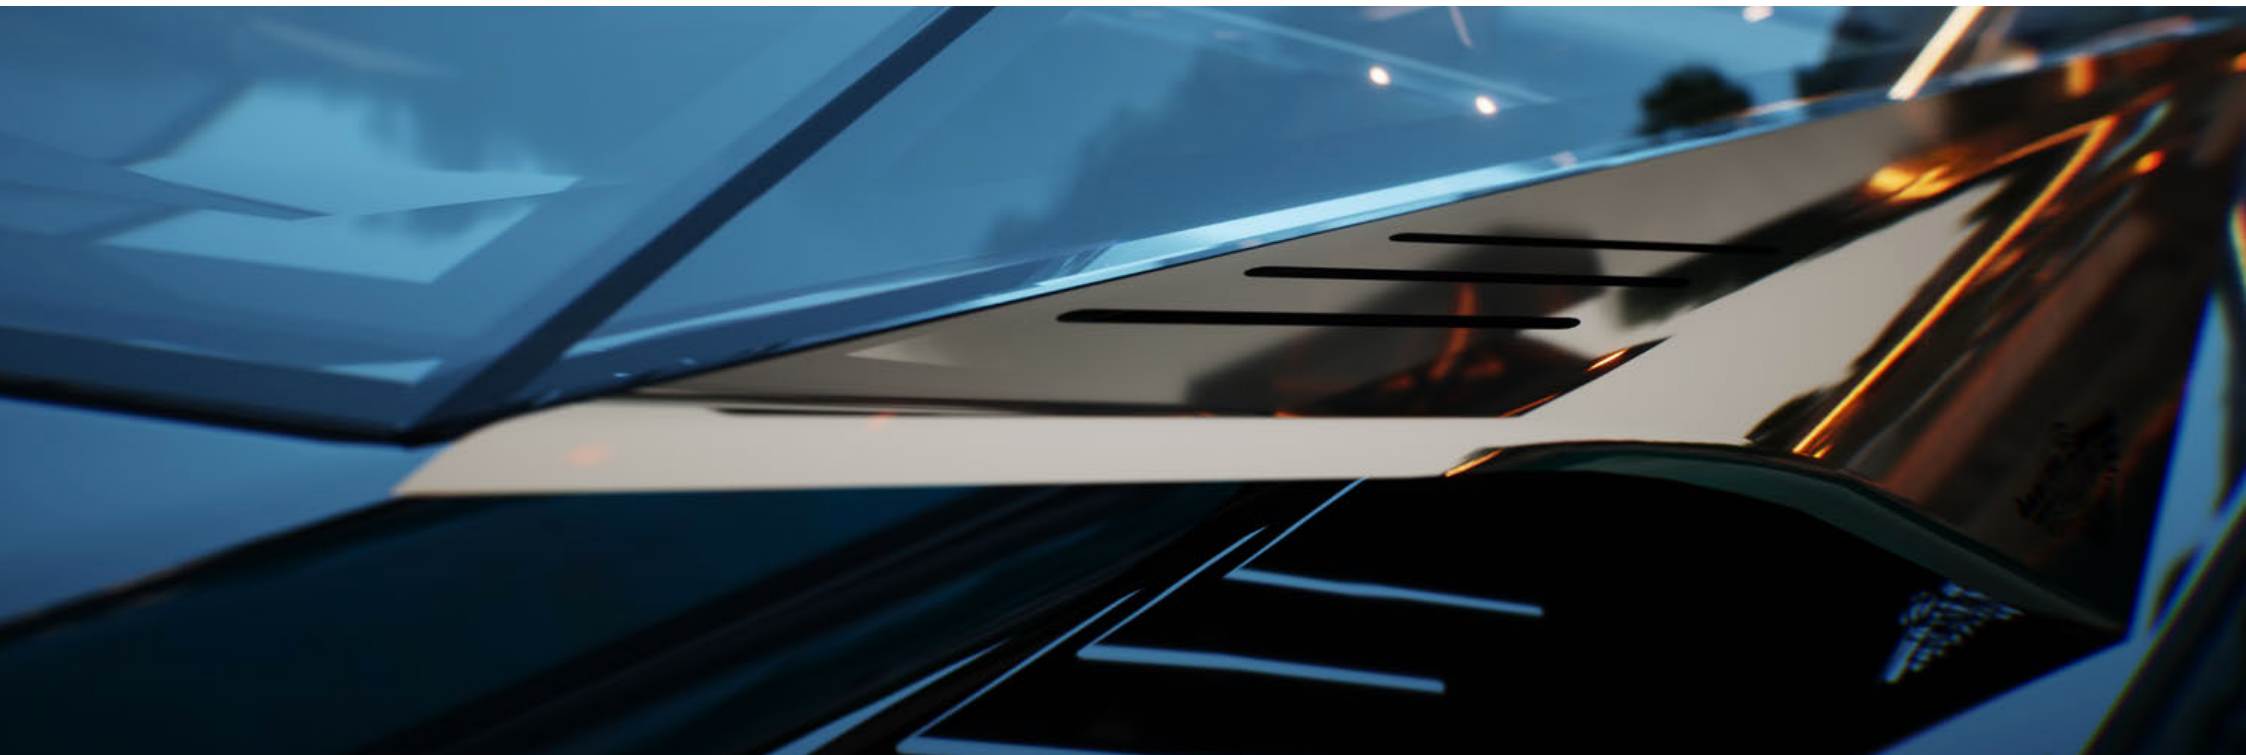

## FORGED BY TIME

The technical heritage, built over more than fifty years of activity, is a living resource that contemporary research continually draws upon and reinterprets in modern ways, while consistently respecting the principles that have determined its success over time.

Speed, reliability, and character are not just stated values, but qualities that unequivocally define every Tornado boat, today as in the past.

INTERIORS

## BEYOND COMFORT

The interior design of the Tornado 40 is an oasis of elegance, deeply inspired by the flawless perfection of nature. Meticulous attention to detail defines the living spaces. Absolute comfort is achieved through the rigorous selection of premium materials, the integration of high technological standards, and masterful space management. Every inch is designed to elevate your time at sea, creating an environment where luxury meets absolute functionality.

## BESPOKE INTERIORS

True luxury lies in personalization. The Tornado 40 offers the owner the complete freedom to configure the spatial layouts and select from an exclusive range of premium fabrics and finishes. This tailor-made approach allows every detail to be customized, ensuring that the vessel perfectly reflects your individual style and your ideal way of experiencing the sea.

T-TOP  
(OPTIONAL)

## SHAPED FOR SPEED

A defining element of the Tornado 40's profile is its strikingly sleek T-Top. Far beyond a simple sunshade, it is a masterpiece of aerodynamic engineering. Designed with fluid, captivating lines that enhance the vessel's sporty silhouette, the structure is meticulously engineered to eliminate drag and suppress vibrations entirely, even at high speeds. This seamless integration ensures the boat's dynamic performance remains uncompromised, providing essential protection for the helm station while preserving an absolute connection with the surrounding elements.

## PURE YACHTING

The Tornado 40 stays true to the sporty soul that made the brand great. It offers new engine options and enhanced power, alongside the complete peace of mind that comes with safe cruising. The experience forged in extreme offshore competitions has been seamlessly transferred to a luxury vessel with an indomitable sporty heart. Generations of owners have experienced this ultimate feeling of total freedom and safety at sea, coupled with the sheer thrill of speed. The complete harmony with the water and the mastery over the waves are emotions that only a true **"Tornadista"** can describe. It is the result of a perfect balance between cutting-edge engineering, visionary design, and deep nautical sensitivity.
